WORK AT ARANYANI

I was responsible of the proposals for SLG's, new trims and surface developments for capsule collections. I have compiled a few of those samples here. Also, I made design techpacks for all the brand's SKU's for the production team. This involved detailed study of the artisans specification requirements, understanding their workflow during production. Based on this understanding, I made the design techpacks and specs to ensure convinience of work for the craftsmen.

I assisted stylist Steven Lasalle for the brand's lifestyle shoot for the S/S 21 season at Nahargarh Hotel in Rajasthan. The images seen on this page are a part of the outtake from the photoshoot.
